Sopi 4 lighthpol tant Caution. At It is a singular fact and one much to be regretted, that valuable medicines, as soon as they become popular and have reveived the test and approval of a discriminating public, are sure to be counterfeited, and thus a bad and spurious article is immediately palmed upon the unsuspecting as the genuine. This

has been notoriously the case with all popular tried and truly valuable medicines for yours past, and will probably configue to be the case for years to The base and contemptible counterfeiter in this way meanly takes advantage of all the efforts and the advertising used by the proprietors of the gamine article to get their medicines into-use and deserved popularity. It is therefore not less the duty than it contributes to the safety of every honest in-dividual in the community, to expose, from down

and forever after distrust all heartless ingrates, who

thus irresponsibly trifle with health and life. THEREFORE TAKE NOTICE.
There is a person by the name of J. B. ROCHE. FORT, now engaged in selling a Pell done up in boxes in exact and perfect imitation of the genuine INDIAN VEGETABLE PILLS, with the omission White Prussia, Live Geese & Common of only one word on the boxes viz. WRIGHT. The Pills sold by this Rochefort are evidently intended as a fraud and imposition upon the community or they would not have been done up in such exact im-Mation of the genuine. This parion is tall and blustering, with a great Theatrical swagger. He was recently known as a very poor player in Baltimore, under the musical cognomen of Jim Brown, and is about twenty five years of age. It is almost beyond quested to call without delay at their old stand danbe that he is supplied with the Pills from a Druggist firm in this city, who have been heretofore notoriously_connected with counterfeit medicines. As soon as proof is obtained, the fountain head of this nefarious business will be exposed, that the eommunity may shou them as they would a serpent.
IN THE MEAN TIME THE PUBLIC ARE

CAUTIONED against buying WRIGHT'S Indian Vegetable. Pills lany one who does not exhibit a certificate of agency signed by the agent for the New England-States, and bearing date since January, 1840. Also take particular notice that the following wording is

They are true and perfect purifiers of the blood; because they drain all corrupt humors from that blife giving fluid. They im-part strength and vigor to the whole system, and heir affects are always beneficial; because they only remove those humors, which are opposed to health. They aid and improve digeston, and sound sleep follows their use; because they cleanse the stomach and howels of their slimy humors which not only irritate and excite the nervous system, but parylize and weaken the digestive orkants. The whole argument of this chapter should rather be the large lowns that should is based beon the idea that the Levislature had make use at it. We doubt, too, whether being e not declared there was no choice of Governor built necessarily involves degradation. A faurby the people, and of course, does not apply to lify may be reduced to poverty and preserve vir the case, and is therefore lost, for the fact is that | tue undrimmed | We loathe with our whole they had so declared. It is unnecessary, there- heart those mean minds who associate vice as a fore, to waste a line farther upon this part of natural sity of powerty. We become the con-

The Legislature, more prudently, We have dwelt at some length upon this part gerous concequences', we say to applyable to as the best they can do the Judges of the Supreme Court and not to the unknown author as a guide, instead of the decusions of the Supreme Court of the State On this point, however, there may exist a diversity of sentiment. but intended to have the full, force, and indeed, perhaps more, than if boldly asserted by the au thor, which we wish to notice in order to show there entre falsily and the flunsy stuff of which the electioneering book is made up It is asserted as follows . There are said to be nearly one hundred naupers, diarrecable to the City of Ban gar, and receiving support-from it, but who line en other places '

"Ol that class of paupers, who do not reside" in the towns to which they are absenceble, at. least nineteen twentieths belong to the old and populaus towns, which are mostly under feder al [whig] control These paugers are scattered among the new, interior and agricultural towns, to which they are driven by Well Doverty and where the overseers of the towns to which they are chargeable, can support them at less ex pense. THE CITY OF BANGOR IS SAID TO HAVE ONE HUNDRED PAUPERS SOCIEGUMSTANCED The city of Portland has probably a gicater number. Other large places are simplarly gituaned '

. Now in reference to Bangor we pronounce these statements utterly and completely false The city of Bangor never had a fifth part of the number of paupers named supported in other towns men, women and children, all told. At the present time there are only two paupers by longing to Bangor and in any manner supported piff Exceptions overrated by it not living within the city. One of these is a child only 4 years old, and is supported by He relatives by the city paying fifty cents a week, and the other is a man supported at the Insane Asylum at Augusta! These facts we have produced direct from the Overseers of the Poor, and they also inform us that there is not a single case of notification from other towns Sun open a Sheriff a regernt Pelenge, that no of any one needing support who is supposed tegal demand had been shown belong to Bangor. We feel that we have the right to presume that the assertions of this false stating electioneering book is equally wide of the truth in reference to Portland, and other Jarge towns. We trust our friends will ascer tate the frost and expose the tail thoods. _ =

But let us look a little further into the last sucted paragraph. Now it is kenerally known that most of the large towns in Maine have made ample provision for the support of their poor by a farm and alust house, and by this systoth they wan suppose them cheeper and street confortably than otherwise. In our own city the cost of weekly maintenance of the poor at the alms house for board, laiging, washing and attendance, is only about sixty five cests guch, It is abourd to suppose that prevate in," tien in the meerior could maintain them fer for deft. lest Again, so far from paupers flesing into the interior and agricultural towns, or being successful. DK. SEARS' UNIVERSAL SAN- CONSUMPTION AND LIVER COM-GUINARIAN---OR PLAINT. BALSON OF TIVERSON

CONSUMPTION & LIVER COMPLAINT. As a general remedy for these diseases, I am fully satisfied from long experience, there is no medicine equal to Dr. Taylor's Balsom of Liverwort. Being purely vegetable, it can be used with difficult breathing, and heals the chest. There can be no question, but this medicine is a certain cure for chronic coughs and colds. I have used it for

the mouth, brought up with walking and coughing, and is usually accompanied with difficulty of breathing, and some paint a the chest. Sometimes it is preceded by an oppression at the chest, a dry lickling rough and slight chooting pame. This disease is always more or less dangerous. This great danger is that these symptoms may terminate in consumption, and immediate remediate can elemn the mouth product of the consumption and immediate remediate can elemn the mouth product and the consumption and immediate remediate can elemn the consumption and immediate remediate constitutions and whellowed the constitution and whellowed the constitution and the constitution are constituted with same malady, and in every instance has it to several of my friends when afflicted with same malady, and in every instance has it to several of my friends when afflicted with same malady, and in every instance has it to several of my friends when afflicted with same malady, and in every instance has it to several of my friends when afflicted with same malady, and in every instance has it to several of my friends when afflicted with same malady, and in every instance has it to several of my friends when afflicted with same malady, and in every instance has it to several of my friends when afflicted with same malady, and in every instance has it to several of my friends when afflicted with same malady, and in every instance ha in consumpting and immediate remes or asu siene save this end. HO and many physicians, will be published in a lew DEN. Banger.

FNERVOUS DISEASES AND WEAK-NESS Dr. Taylor's Balsom of Liverwort made of the subscriber, of Hangor, county of Pend at 375 Bowery; a assuredly an excellent remedy seoi, and State of Maine, hereby gives pub for these dispases. My wife has been more or less ill for ten years. She was extremely nervous and at times so weat that she could not attend to her domestie duties. By the use of this medicine, her attength is wholly restored, and she is as healthy. as i ban -i-h het to be. My address is at iff. Taylor's office.

CURE OF CONSUMPTION. Mrs Martin, a worthy member of my congregation, was taken ill some time since with a cold, pain in the breast and some difficulty of breathing, and in a few days thereafter she had a violent cough and violent pain in the sides, which no medicine would relieve. She continued in this way for a long time under the medical care of Dr. Rea, but finally because consumptive, and was evidently near the end of her earihly sufferings, when her bruther persuaded her in try Dr. Taylor's Balsam of Liverwort. When she commenced this medicine it did not seem, to agree with her for a few days, but by lessening the dose she found it answered admirably. it relieved her cough and her difficulty of breathing instanter, and we had the pleasure of witnessing her rapid recovery to health.
